

PMC BioTec Named 2010 GoingGreen Top 50 Winner as an Innovator in Biological Solutions for Waste to Energy and Biofuels

BOSTON, March 8 /PRNewswire/ -- PMC BioTec, a global leader in biological waste to energy technologies, announced it was selected as a 2010 GoingGreen Top 50 Winner by AlwaysOn. This award signifies leadership amongst its peers and game-changing approaches and technologies that are likely to disrupt existing markets and entrenched players. PMC BioTec was specially chosen by the AlwaysOn editorial team and industry experts spanning the globe, based on a set of five criteria: innovation, market potential, commercialization, stakeholder value, and media buzz.

PMC is one of the new breed of cleantech companies that produce economically attractive and environmentally beneficial renewable energy on a commercial scale. PMC BioTec has patented AFC(TM) technology with worldwide installations in Fortune 500 plants that manipulate biological systems to convert liquid organic wastes to energy, fertilizer, and clean water. The Company's new AFC(TM) System is a ready add-on to the thousands of existing anaerobic digestors to immediately double energy production and significantly reduce residual disposal costs. PMC is partnering domestically and internationally with private and municipal waste treatment plants, food processors, chemical facilities, biofuels manufacturers, and agricultural companies.

"The GoingGreen Top 50 winners have excelled in key strategic areas in the global clean energy technology markets," said Tony Perkins, founder and CEO of AlwaysOn. "We congratulate them for their success in introducing new tools, services, and systems that are driving the next phase of greentech innovation and transforming the biggest industries on earth."

"We are honored to be selected as a GoingGreen Top 100 winner," said Frank Sinton, Jr., CEO of PMC BioTec. "This award recognizes the transformational effect our bioenergy technology will have on creating a valuable and profitable supply of renewable energy and clean water from the many sources of biowaste".

About PMC BioTec

PMC BioTec is a global leader in waste water treatment solutions focused on biological efficiency, energy generation, biosolids sludge elimination, and water purification. Its AFC(TM) technology has set a new industry standard for 100% of onsite sludge elimination using aerobic reactors. The new generation AFC, with advancements in molecular size reduction, is positioned to transform anaerobic digester efficiencies enabling profitable conversion of millions of tons of food, agricultural, and municipal biosolids to renewable energy and clean water. Based in Boston, Massachusetts and Exton, Pennsylvania, PMC BioTec has extensive experience and expertise in developing and deploying innovative waste and energy solutions worldwide. About AlwaysOn

AlwaysOn is the leading business media brand networking the Global Silicon Valley. AlwaysOn helped ignite the social media revolution in early 2003 when it launched the AlwaysOn network. In 2004, it became the first media brand to socially network its online readers and event attendees. AlwaysOn's preeminent executive event series includes the Summit at Stanford, OnMedia, OnHollywood, OnDC, OnDemand, Venture Summit Silicon Valley, Venture Summit East, GoingGreen, GoingGreen East, and GoingGreen Europe. The AlwaysOn network and live event series continue to lead the industry by empowering its readers, event participants, sponsors, and advertisers like no other media brand.
